Administrative Determinations are provided when there is a need for clarity within the development standards contained in the City's Municipal Code. (For example, if a development standard specifies a certain measurement from a road or street, it could be argued that the standard only applies to public streets and not private. In this instance there is a need for clarity in determining what the purpose of the standard is and how it should be applied.)

Please state your question and desired outcome, including justification for your position. Use additional paper if needed.
