

Project Notice / Aviso de Proyecto

P2011 Quinault Ave & Columbia Center Blvd Intersection Project

Dear Resident,

The City of Kennewick is planning for an improvement project at the intersection of W. Quinault Ave and N. Columbia Center Blvd. A grant through Benton Franklin Council of Governments and the Federal Highway Administration has awarded funding to the City to acquire right-of-way and to provide design engineering for the improvements.

Project Schedule

The planning process began this year for right-of-way and design. Timing for construction has yet to be determined due to insufficient funds. The City is actively pursuing grant funding to fulfill the construction of this project.

What to Expect

Owners of adjacent properties to the south of the intersection will be contacted during the right-of-way phase of this project this winter 2020/2021. (No additional right-of-way will be needed from north side properties). Design of the improvements is proceeding and will continue into 2021.

An open house will be scheduled prior to construction for an opportunity for property owners, stakeholders, and the public to see the plans and ask questions to City staff.

Project Updates

The City's Current Projects web page will provide information during the right-of-way and design phases. The project page is located at the link below:

<https://www.go2kennewick.com/597/Projects>

The City of Kennewick is committed to completing this project in a timely and efficient manner, with as little impact to the public as possible.
