

**CITY OF KENNEWICK  
Conditional Use Permit Checklist**

Please include this checklist with your application. We will review your application at the counter prior to acceptance using the checklist to determine completeness. The plans must contain the information listed below. **Incomplete applications will not be accepted.** If you have any questions please call (509) 585-4416 or (509) 585-4558. All references to KMC's can be reviewed on our Web Site at [www.go2kennewick.com](http://www.go2kennewick.com) under Hot Links - Kennewick Municipal Code.

- \_\_\_\_\_ 1. Application & Fees- General Form completed and attached. See [Fee Schedule](#) for fees.
- \_\_\_\_\_ 2. A report submitted electronically in Microsoft Excel format showing the name and address of the owner of record of the property involved and a list of the names and addresses of all property owners within 300 feet of subject property and of such contiguous property under the same ownership as they appear on the tax rolls of the Benton County Treasurer. Example below:

Parcel #	Owner First Name	Owner Last Name	Owner Address	Owner City	Owner State	Owner Zip	Property Address
x-xxxx-xxx-xxxx-xxx	John & Jane	Dow	1234 W City St	Kennewick	WA	99336	1234 S Example St

- \_\_\_\_\_ 3. Site address and parcel number (legal description).
- \_\_\_\_\_ 4. Zoning district of subject site.
- \_\_\_\_\_ 5. One copy (1) of the site plan legibly drawn on paper of sufficient size to contain the required information, but not less than 11" x 17". One electronic copy. **All site plans shall be drawn to a standard scale (i.e., 1" = 20')**.
- \_\_\_\_\_ 6. Adjacent land uses.
- \_\_\_\_\_ 7. Property boundaries and dimensions.
- \_\_\_\_\_ 8. Names and location of all existing streets abutting the site.
- \_\_\_\_\_ 9. Dimensions, height, location and use of proposed construction and existing buildings/structures.
- \_\_\_\_\_ 10. Distance from property lines.
- \_\_\_\_\_ 11. North arrow.
- \_\_\_\_\_ 12. Location and size of any easements.
- \_\_\_\_\_ 13. Location and size of all parking spaces, including accessible spaces. ( KMC 18.36)  
 Restaurants – List number of seats    Hotels/Motels – List number of rooms  
 Churches/Mortuaries/Funeral Homes/Stadiums/ Theaters – List number of seats or bench footage  
 Medical/Dental Facilities – List number of Doctors/Dentists  
 Hair Salon/Nail Salon/Spa – List number of chairs/treatment areas  
 Multi-Use – List building square footage    Retail and/or Office – List building square footage
- \_\_\_\_\_ 14. Landscaped area in square feet. Location and type of existing and/or proposed landscaping plan showing number, species, planning method, size, height, caliper and location of plants, and method of irrigation. Type and design of non-living materials, existing trees and plant groupings. (KMC 18.21) One copy of Landscape plan legibly **drawn to a standard scale (i.e., 1" = 20')** on paper of sufficient size to contain the required information, but not less than 11" x 17". One electronic copy.
- \_\_\_\_\_ 15. Location and dimensions of proposed and/or existing driveway approaches including existing driveway locations across public right-of-way(s).
- \_\_\_\_\_ 16. Location of nearest fire hydrant.
- \_\_\_\_\_ 17. Location and size of existing and/or proposed public sidewalks, curbs and gutters adjacent to the property.
- \_\_\_\_\_ 18. Vision clearance triangles at street intersections and at driveways and curb cut intersection with streets.
- \_\_\_\_\_ 19. Height and location of proposed fencing. (KMC 18.27)

- \_\_\_\_\_20. Exterior lighting and signage. Location of all building and parking lot lighting. One paper copy and/or one electronic copy of all proposed exterior lighting cut sheets. All lighting must comply with KMC 18.39 with specific attention given to KMC 18.39.030(2). (Note compliance with KMC 18.39 Outdoor Light Fixtures on drawing.)
- \_\_\_\_\_21. Trash receptacle enclosures, which are required for all exterior trash receptacles. (KMC 18.12.280 Note compliance with KMC on drawing.)
- \_\_\_\_\_22. Cubic feet of any excavation.
- \_\_\_\_\_23. Location of all overhead power lines.
- \_\_\_\_\_24. One copy of Building Elevations legibly **drawn to a standard scale (i.e., 1" = 20')** on paper of sufficient size to contain the required information, but not less than 11" x 17". One electronic copy.
- \_\_\_\_\_25. One copy of Topography drawing legibly **drawn to a standard scale (i.e., 1" = 20')** on paper of sufficient size to contain the required information, but not less than 11" x 17" One electronic copy.
- \_\_\_\_\_26. SEPA Checklist.
  - Completed SEPA Checklist and signature on page 13
  - Completed Salmonid Checklist pages 1 - 4 & signature on page 4.

\*\*\*\*\* **IF THE APPLICATION IS MADE ON-LINE NO PAPER COPIES ARE REQUIRED.**

### **Concurrency Requirements**

Water and Sewer concurrency will be determined by the City's Utility Service Manager. Water and sewer demands of development will be calculated by using the demand tables contained in the City's Water and Sewer System Plans.

Transportation Facility concurrency will be determined by the City's Traffic Engineer. Traffic demand and trip generation will be calculated by the generation rates contained in the latest edition of the Institute of Traffic Engineers (ITE) Trip Generation Manual at the highest possible use of the property.

**Please review the new COMMERCIAL DESIGN STANDARDS adopted by the City of Kennewick on July 5, 2006. Your site plan will be reviewed for compliance with these standard if your project is in a "Commercial" zone (CN, CO, CC, CR, CG, CM).**

**If your project is in a Residential zone (RL, RS, RM, RH, RTP or RMH) review the Residential Design Standards KMC 18.75.**

If within a flood prone area, information must be submitted from a surveyor, indicating the elevation(s) above sea level, of the site. (For residential construction, the principle requirements are that no basements be constructed and that the first floor be elevated to or above the regulated flood elevation).

### **Summary of Items Required:**

1. Completed Application – General Form
2. Site Plan
3. Landscape Plan
4. Building Elevations
5. Topography Drawing
6. Design Standards Checklist
7. Environmental Checklist

Land use permit applications must be made on-line following the procedures below **OR** a counter intake appointment must be made with a Planner (see attached sheet for Planner information). **The following permits are counter intake only and an appointment is not required:**

Accessory Dwelling Unit  
Parcel Combinations

Change of Use  
Change of Pre-Zone

Boundary Line Adjustments

## Applicant Procedures for On-line Application of Land Use Permits

1. Review the application checklist and have **all** required documents ready to submit in PDF format before you apply. All required items from the application checklist must be submitted in this format or your application cannot be accepted. E-mail size restrictions are in place and cannot exceed a total of 10 MB per e-mail so several e-mails could be required.

To apply on-line you must contact the Building/Planning Dept to receive your customer number. Call 585-4280 or email [permit-documents@ci.kennewick.wa.us](mailto:permit-documents@ci.kennewick.wa.us). Once you have your assigned customer number follow the steps below in the order listed to ensure a successful application process.

2. Go to [www.go2kennewick.com](http://www.go2kennewick.com); click on **Online Services**; click on Permits; click on **Registered User** or **New User** (*If new user you must set up an e-user account. Be sure to write down your user name and password for future access*). Once e-user registered you will be asked for your customer number. Enter the customer number you were give in step 1 and you will be logged on to Permits.

3. Click on **Apply for a permit: Select the Permit Type** from the drop down list; Add the **Permit Description** as shown on your paper application which has been filled out per item 1 above in the line labeled **Proposal Requested**; Add **Permit Address Line 1** which will be the address of project as listed on the application form (*registered user address will automatically populate here and must be changed to project address*); Add **City/State/Zip Code** of the project address; Click on Next Step; Enter the requested information in the boxes (*boxes with asterisk are required*); Click on Next Step; Review Information and if correct click on Save. At this point the system will create a permit number for you. **Copy the (PLN-201X-XXXXX) Permit Number** as you will need this number to e-mail your plans and other required documents at the next step below.

4. E-mail one copy of all required documents from the application checklist to [Permit-Documents@ci.kennewick.wa.us](mailto:Permit-Documents@ci.kennewick.wa.us) in PDF format with the permit number (**PLN-201X-XXXXX**) in the subject line for reference. Documents e-mailed without the permit number in the subject line cannot be associated with a permit and will be deleted. Your application will be determined to be incomplete and will not be processed.

5. The application and associated documents will be reviewed to determine if the application can be accepted as counter ready. **Payment cannot be made until that time. Please be sure to have a contact name, direct contact phone number and contact e-mail listed on your application for notification purposes.**

6. Payment can be made with a **credit or debit card** (Visa or Mastercard only) by returning to [www.go2kennewick.com](http://www.go2kennewick.com) and clicking **Online Services**, then click on **Permits**; log on with your **registered user name and password**. Click on **My Permits** highlighted in blue under your customer name. Click on the **permit number** also highlighted in blue. In the drop down box highlighted in yellow select **fees**, then click in the **blue highlighted payment of fees area** to go to the payment screen.

**Checks** can be accepted if mailed with the Permit Number listed on the check. (The review process cannot start without payment.) Once Payment has been made e-mail [permit-documents@ci.kennewick.wa.us](mailto:permit-documents@ci.kennewick.wa.us) or call 509-585-4280 to notify Planning payment has been made and state the permit number. The application will be assigned to a planner for review and they will contact you.

**CITY OF KENNEWICK  
COMMUNITY PLANNING & DEVELOPMENT SERVICES  
APPLICATION (general form)**

PROJECT # \_\_\_\_\_ - \_\_\_\_\_ PLN- \_\_\_\_\_ - \_\_\_\_\_ FEE \$ \_\_\_\_\_

Please completely fill out this form and return it to Community Planning & Development Services, PO Box 6108, Kennewick, WA 99336, along with the application fee (see fee schedule). Attach a copy of the checklist for the land use application you are submitting. The application submittal must contain all of the information requested on the checklist in order to be processed. **Incomplete applications will not be accepted.**

Check one of the following for the type of application you are submitting:

Site Plan Tier 1      Tier 2      Tier 3      Binding Site Plan

## SEPA ENVIRONMENTAL CHECKLIST

### ***Purpose of checklist:***

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

### ***Instructions for applicants:*** [\[help\]](#)

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

### ***Instructions for Lead Agencies:***

Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

### ***Use of checklist for nonproject proposals:*** [\[help\]](#)

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

**A. BACKGROUND** [\[help\]](#)

1. Name of proposed project, if applicable: [\[help\]](#)
  
2. Name of applicant: [\[help\]](#)
  
3. Address and phone number of applicant and contact person:  
[\[help\]](#)
  
  
  
  
4. Date checklist prepared: [\[help\]](#)
  
  
  
5. Agency requesting checklist: [\[help\]](#)
  
  
  
  
  
6. Proposed timing or schedule (including phasing, if applicable):  
[\[help\]](#)
  
  
  
  
  
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.  
[\[help\]](#)
  
  
  
  
  
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.  
[\[help\]](#)

**Evaluation for Agency Use Only**

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. [\[help\]](#)

10. List any government approvals or permits that will be needed for your proposal, if known. [\[help\]](#)

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.) [\[help\]](#)

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. [\[help\]](#)

**Evaluation for Agency Use Only**

**B. ENVIRONMENTAL ELEMENTS** [\[help\]](#)

**Evaluation for Agency Use Only**

**1. Earth**

- a. General description of the site [\[help\]](#)  
(check one): Flat, rolling, hilly, steep slopes,  
mountainous, other \_\_\_\_\_
  
- b. What is the steepest slope on the site (approximate percent slope)? [\[help\]](#)
  
- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils. [\[help\]](#)
  
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. [\[help\]](#)
  
- e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill. [\[help\]](#)
  
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. [\[help\]](#)

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? [\[help\]](#)

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: [\[help\]](#)

## 2. Air

a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known. [\[help\]](#)

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. [\[help\]](#)

c. Proposed measures to reduce or control emissions or other impacts to air, if any: [\[help\]](#)

## 3. Water

a. Surface Water: [\[help\]](#)

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. [\[help\]](#)

## Evaluation for Agency Use Only

- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. [\[help\]](#)
  
- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. [\[help\]](#)
  
- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. [\[help\]](#)
  
- 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan. [\[help\]](#)
  
- 6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. [\[help\]](#)

b. Ground Water:

- 1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. [\[help\]](#)
  
- 2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number

of animals or humans the system(s) are expected to serve.

[\[help\]](#)

c. Water runoff (including stormwater):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. [\[help\]](#)

2) Could waste materials enter ground or surface waters? If so, generally describe. [\[help\]](#)

3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any: [\[help\]](#)

#### 4. Plants [\[help\]](#)

a. Check the types of vegetation found on the site: [\[help\]](#)

deciduous tree:	alder	maple	aspen	other
evergreen tree:	fir	cedar	pine	other

shrubs

grass

pasture

bullrush

crop or grain

Orchards, vineyards or other permanent crops.

wet soil plants: cattail buttercup

skunk cabbage

other water plants: water lily

eelgrass

milfoil

other types of vegetation

- b. What kind and amount of vegetation will be removed or altered? [\[help\]](#)
  
- c. List threatened and endangered species known to be on or near the site. [\[help\]](#)
  
- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: [\[help\]](#)
  
- e. List all noxious weeds and invasive species known to be on or near the site.

**5. Animals**

- a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site. Examples include: [\[help\]](#)

<u>birds:</u>	hawk	heron	eagle	songbirds	
other:					
<u>mammals:</u>	deer	bear	elk	beaver	
other:					
<u>fish:</u>	bass	salmon	trout	herring	shellfish
other:					

- b. List any threatened and endangered species known to be on or near the site. [\[help\]](#)
  
- c. Is the site part of a migration route? If so, explain. [\[help\]](#)

d. Proposed measures to preserve or enhance wildlife, if any: [\[help\]](#)

e. List any invasive animal species known to be on or near the site.

## 6. Energy and natural resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. [\[help\]](#)

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. [\[help\]](#)

c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: [\[help\]](#)

## 7. Environmental health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe. [\[help\]](#)

- 1) Describe any known or possible contamination at the site from present or past uses. [\[help\]](#)
  
- 2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.
  
- 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.
  
- 4) Describe special emergency services that might be required.
  
- 5) Proposed measures to reduce or control environmental health hazards, if any: [\[help\]](#)

b. Noise

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? [\[help\]](#)
  
- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. [\[help\]](#)

- 3) Proposed measures to reduce or control noise impacts, if any: [\[help\]](#)

## 8. Land and shoreline use

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. [\[help\]](#)
  
- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or non-forest use? [\[help\]](#)
  - 1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how:
  
- c. Describe any structures on the site. [\[help\]](#)
  
- d. Will any structures be demolished? If so, what? [\[help\]](#)
  
- e. What is the current zoning classification of the site? [\[help\]](#)

- f. What is the current comprehensive plan designation of the site? [\[help\]](#)
  
- g. If applicable, what is the current shoreline master program designation of the site? [\[help\]](#)
  
- h. Has any part of the site been classified as a critical area by the city or county? If so, specify. [\[help\]](#)
  
- i. Approximately how many people would reside or work in the completed project? [\[help\]](#)
  
- j. Approximately how many people would the completed project displace? [\[help\]](#)
  
- k. Proposed measures to avoid or reduce displacement impacts, if any: [\[help\]](#)
  
- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: [\[help\]](#)
  
- m. Proposed measures to ensure the proposal is compatible with nearby agricultural and forest lands of long-term commercial significance, if any:

## 9. Housing

- a. Approximately how many units would be provided, if any?  
Indicate whether high, middle, or low-income housing. [\[help\]](#)
  
- b. Approximately how many units, if any, would be eliminated?  
Indicate whether high, middle, or low-income housing. [\[help\]](#)
  
- c. Proposed measures to reduce or control housing impacts, if any:  
[\[help\]](#)

## 10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? [\[help\]](#)
  
- b. What views in the immediate vicinity would be altered or obstructed? [\[help\]](#)
  
- c. Proposed measures to reduce or control aesthetic impacts, if any: [\[help\]](#)

## 11. Light and glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur? [\[help\]](#)
  
- b. Could light or glare from the finished project be a safety hazard or interfere with views? [\[help\]](#)

- c. What existing off-site sources of light or glare may affect your proposal? [\[help\]](#)
  
- d. Proposed measures to reduce or control light and glare impacts, if any: [\[help\]](#)

## 12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity? [\[help\]](#)
  
- b. Would the proposed project displace any existing recreational uses? If so, describe. [\[help\]](#)
  
- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: [\[help\]](#)

## 13. Historic and cultural preservation

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers located on or near the site? If so, specifically describe. [\[help\]](#)
  
- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. [\[help\]](#)

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. [\[help\]](#)
  
- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

#### **14. Transportation**

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any. [\[help\]](#)
  
- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? [\[help\]](#)
  
- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate? [\[help\]](#)

- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). [\[help\]](#)
  
- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. [\[help\]](#)
  
- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates? [\[help\]](#)
  
- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. [\[help\]](#)
  
- h. Proposed measures to reduce or control transportation impacts, if any: [\[help\]](#)

## 15. Public services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe. [\[help\]](#)

b. Proposed measures to reduce or control direct impacts on public services, if any. [\[help\]](#)

**16. Utilities**

a. Check utilities currently available at the site: [\[help\]](#)  
electricity, natural gas, water, refuse service,  
telephone, sanitary sewer, septic system,  
other \_\_\_\_\_

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. [\[help\]](#)

**C. SIGNATURE** [\[help\]](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: \_\_\_\_\_

**D. SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS** [\[help\]](#)

**(IT IS NOT NECESSARY to use this sheet for project actions)**

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

## ESA LISTED SALMONIDS CHECKLIST

The Listed Salmonids Checklist is provided in order that the City can identify a project's potential impacts (if any) on salmonids that have been listed as "threatened" or "endangered" under the Federal Endangered Species Act (ESA). A salmonid is any fish species that spends part of its life cycle in the ocean and returns to fresh water. Potential project impacts that may result in a "taking" of listed salmonids must be avoided, or mitigated to insignificant levels. Generally, under ESA, a "taking" is broadly defined as any action that causes the death of, or harm to, the listed species. Such actions include those that affect the environment in ways that interfere with or reduce the level of reproduction of the species.

**If ESA listed species are present or ever were present in the watershed where your project will be located, your project has the potential for affecting them, and you need to comply with the ESA. The questions in this section will help determine if the ESA listing will impact your project. The Fish Program Manager at the appropriate Department of Fish and Wildlife (DFW) regional office can provide additional information. Please contact the Dept. of Fish and Wildlife at 1701 S. 24th, Yakima WA 98902-5720, Phone No. 509-575-2740.**

1. Are ESA listed salmonids currently present in the watershed in which your project will be?

Yes  No

Please Describe.

2. Has there ever been an ESA listed salmonid stock present in this watershed?

Yes  No

Please Describe.

NOTE: Kennewick is located in the upper Mid-Columbia watershed. Salmonids are present in the watershed - questions no. 1 and no. 2 already answered "yes". Questions A-1 and A-2 are also answered.

**PROJECT SPECIFIC:** The questions in this section are specific to the project and vicinity.

A1. Name of watershed: Upper Mid-Columbia

A2. Name of nearest waterbody: Columbia River

A3. What is the distance from this project to the nearest body of water?

Often a buffer between the project and a stream can reduce the chance of a negative impact to fish.

A4. What is the current land use between the project and the potentially affected water body (parking lots, farmland, etc.)

A5. What percentage of the project will be impervious surface (including pavement & roof area)?

**FISH MIGRATION:** The following questions will help determine if this project could interfere with migration of adult and juvenile fish. Both increases and decreases in water flows can affect fish migration.

B1. Does the project require the withdrawal of

a. Surface water? Yes \_\_\_\_\_ No \_\_\_\_\_  
Amount  
Name of surface water body

b. Ground water? Yes \_\_\_\_\_ No \_\_\_\_\_  
Amount  
From Where  
Depth of well

B2. Will any water be rerouted? Yes \_\_\_\_\_ No \_\_\_\_\_  
If yes, will this require a channel change?

B3. Will there be retention ponds? Yes \_\_\_\_\_ No \_\_\_\_\_  
If yes, will this be an infiltration pond or a surface discharge to either a municipal storm water system or a surface water body?

If to a surface water discharge, please give the name of the waterbody.

B4. Will this project require the building of new roads? (Increased road mileage may affect the timing of water reaching a stream and may, thus, impact fish habitat.)

B5. Are culverts proposed as part of this project? Yes \_\_\_\_\_ No \_\_\_\_\_

B6. Are stormwater drywells proposed as part of this project? Yes \_\_\_\_\_ No \_\_\_\_\_

B7. Will topography changes affect the duration/direction of runoff flows? Yes \_\_\_\_\_ No \_\_\_\_\_

If yes describe the changes.

B8. Will the project involve any reduction of a floodway or floodplain by filling or other partial blockage of flows? Yes \_\_\_\_\_ No \_\_\_\_\_

If yes, how will the loss of flood storage be mitigated by your project?

**WATER QUALITY:** The following questions will help determine if this project could adversely impact water quality. Degraded water quality can affect listed species. Water quality can be made worse by runoff from impervious surfaces, altering water temperature, discharging contaminants, etc.

C1. Will your project either reduce or increase shade along or over a waterbody?  
Yes \_\_\_\_\_ No \_\_\_\_\_ (Removal of shading vegetation or the building of structures such as docks or floats often result in a change in shade.)

C2. Will the project increase nutrient loading or have the potential to increase nutrient loading or contaminants (fertilizers, other waste discharges, or runoff) to the waterbody?  
Yes \_\_\_\_\_ No \_\_\_\_\_

C3. Will turbidity (dissolved or partially dissolved sediment load) be increased because of construction of the project or during operation of the project? (In-water or near water work will often increase turbidity.)  
Yes \_\_\_\_\_ No \_\_\_\_\_

C4. Will your project require long term maintenance, i.e., bridge cleaning, highway salting, chemical sprays for vegetation management, clearing of parking lots?  
Yes \_\_\_\_\_ No \_\_\_\_\_

Please Describe.

**Vegetation:** The following questions are designed to determine if the project will affect riparian vegetation, which can impact listed species.

D1. Will the project involve the removal of any vegetation from the stream banks?

YES \_\_\_\_ NO \_\_\_\_

If yes, please describe the existing conditions and the amount and type of vegetation to be removed.

D2. If any vegetation is removed, do you plan to re-plant? YES \_\_\_\_ NO \_\_\_\_

If yes, what types of plants will you use?

E. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand the City is relying on them to make its decision.
